The passion for flight has seized Alaska flyers—and those who yearn to fly to the Last Frontier—since 1913, when the first biplane arrived in crates via steamship and paddle-wheeler. In the decades to follow, Alaska's skies buzzed with aircraft—some brand-new, others patched together, and still others lovingly restored to their original beauty. Alaska's Bush Planes offers a brief history of flight in Alaska,

then transports the reader on a visual journey with favorite aircraft, some of which have served for decades. It's a perfect book for the pilot—or the pilot wannabe—who dreams of flying in the Northland.

Guess what -- Gary Paulsen was being kind to Brian. In Guts, Gary tells the real stories behind the Brian books, the stories of the adventures that inspired him to write Brian Robeson's story: working as an emergency volunteer; the death that inspired the pilot's death in Hatchet; plane crashes he has seen

and near-misses of his own. He describes how he made his own bows and arrows, and takes readers on his first hunting trips, showing the wonder and solace of nature along with his hilarious mishaps and mistakes. He shares special memories, such as the night he attracted every mosquito in the county, or how he met the moose with a sense of humor, and the moose who made it personal. There's a handy chapter on "Eating Eyeballs and Guts or Starving: The Fine Art of Wilderness Nutrition." Recipes included. Readers may wonder how Gary Paulsen survived to write all of his books -- well, it took guts.

A critically acclaimed tearjerker from a master storyteller: On one side of the border is brutality and heartache; on the other side--a new life. 14yo Manny is an orphan in Juarez, Mexico. He competes with his bigger, meaner rivals for the coins American tourists throw off the bridge between Texas and his town. Across that heavily guarded bridge await a different world and a better existence. On the night when Manny dares the crossing--through the muddy shallows of the Rio Grande, past the searchlights and the border patrol--the young man encounters an old stranger who could prove to be an ally or an enemy. Manny can't tell for certain. But if he is to achieve his dream, then he must be willing to risk everything--even his life.

It is Marsh and Willy who discover the terrible secret behind Carl's dance, a secret that threatens to destroy him. A mesmerizing memoir from a literary legend, giving readers a new perspective on the origins of Hatchet and other famed survival stories. His name is synonymous with high-stakes wilderness survival adventures. Now, beloved author Gary Paulsen portrays a series of life-altering moments from his turbulent childhood as his own original survival story. If not for his summer escape from a shockingly neglectful Chicago upbringing to a North Woods homestead at age five, there never would have been a Hatchet. Without the encouragement of the librarian who handed him his first book at age thirteen, he may never have become a reader. And without his desperate teenage enlistment in the Army, he would not have discovered his true calling as a storyteller. An entrancing account of grit and growing up,

perfect for newcomers and lifelong fans alike, this is the famed author at his rawest and most real.

As a child during the Second World War, Gary Paulsen and his mother travelled from Chicago to the Philippines, summoned by his father, a distant, imperious army officer whom Gary had never known. With his mother, who was sometimes fiercely protective, sometimes selfishly neglectful, Gary witnessed scenes of extreme horror (such as a bloody encounter with sharks in the Pacific), and these memories alternate with tender evocations of his life of a young boy growing up at an extraordinary time.

This stunning New York Times Bestseller from the survival story master, set along a rugged coastline centuries ago, does for the ocean what Hatchet does for the woods, as it relates the story of a young person's battle to stay alive against the odds, where the high seas meet a coastal wilderness. When a deadly plague reaches the small fish camp where he lives, an orphan named Leif is forced to take to the water in a cedar canoe. He flees northward, following a wild, fjord-riven shore, navigating from one danger to the next, unsure of his destination. Yet the deeper into his journey he paddles, the closer he comes to his truest self as he connects to "the heartbeat of the ocean . . . the pulse of the sea." With hints of Nordic mythology and an irresistible narrative pull, Northwind is Gary Paulsen at his captivating, adventuresome best.

They rowed hard, away from the battleships and the bombs. Water sprayed over them. The rowboat pitched one way and then the other. Then, before his eyes, the Arizona lifted up out of the water. That enormous battleship bounced up in the air like a rubber ball and split apart. Fire burst out of the ship. A geyser of water shot into the air and came crashing down. Adam was almost thrown out of the rowboat.

He clung to the seat as it swung around. He saw blue skies and the glittering city. The boat swung back again, and he saw black clouds, and the Arizona, his father's ship, sinking beneath the water. -- from A Boy at War "He kept looking up, afraid the planes would come back. The sky was obscured by black smoke. It was all unreal: the battleships half sunk, the bullet holes in the boat, Davi and Martin in the water." December 7, 1941: On a quiet Sunday morning, while Adam and his friends are fishing near Honolulu, a surprise attack by Japanese bombers destroys the fleet at Pearl Harbor. Even as Adam struggles to survive the sudden chaos all around him, and as his friends endure the brunt of the attack, a greater concern hangs over his head: Adam's father, a navy lieutenant, was stationed on the USS Arizona when the bombs fell. During the subsequent days Adam -- not yet a man, but no longer a boy -- is caught up in the war as he desperately tries to make sense of what happened to his friends and to find news of his father. Harry Mazer, whose autobiographical novel, The Last Mission, brought the European side of World War II to vivid life, now turns to the Pacific theater and how the impact of war can alter young lives forever.

Longlisted for the National Book Award The Newbery Honor–winning author of Hatchet and Dogsong shares surprising true stories about his relationship with animals, highlighting their compassion, intellect, intuition, and sense of adventure. Gary Paulsen is an adventurer who competed in two Iditarods, survived the Minnesota wilderness, and climbed the Bighorns. None of this would have been possible without his truest companion: his animals. Sled dogs rescued him in Alaska, a sickened poodle guarded his well-being, and a horse led him across a desert. Through his interactions with dogs, horses, birds, and more, Gary has been struck with the belief that animals know more than we may fathom. His understanding and admiration of animals is well known, and in This Side of Wild, which has taken a lifetime to write, he proves the ways in which they have taught him to be a better person.
